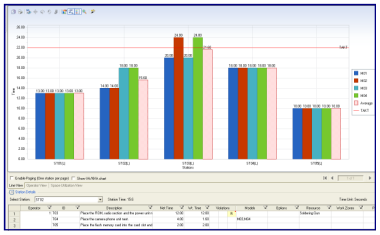
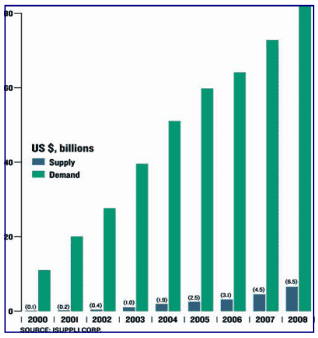
PRODUCTION MODELING CORPORATION

Electronics Manufacturing
Productivity Improvement Solutions

Wherever PMC goes
Productivity Happens

www.pmcorp.com





Short product life cycles, high-risk investment decisions, large volumes, huge customer base, intense price-wars & global supply-demand networks characterize today's electronics manufacturing business.

PMC's Industrial Engineering & Operations improvement services helps enterprises optimize and streamline operational flow, thereby improving productivity & increasing flexibility to satisfy today's electronics market.

State-of-the-art productivity tools: Simulation, Scheduling, Work measurement, Time Standards, Integrated Lean-Six Sigma-TOC approach, and other IE tools.

Partnership mindset: We earn the customer's trust, then we keep it!

Delighting customers, globally: 6000+ Successful projects & implementations in North America, Europe, Asia, South America, and Middle East.

Global presence: Offices in USA, Sweden, India, Turkey, Honduras & Thailand.

Clarity of Thought: Clear, Simple, Effective & Proven Data-Driven Approach.
